Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Wednesday 22 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Bright and breezy on Wednesday. Rain later.

Today:
After a cloudy start with perhaps the odd spot of light rain over the hills it will improve with most parts seeing plenty of sunshine. However, cloud increasing again during the afternoon with patchy rain over the hills later. Breezy. Maximum temperature 19 deg C (66 deg F).

Tonight:
Cloudy and windy with hill fog and long periods of mainly light rain. Some parts further east may stay largely dry. Cloud breaking after midnight with all parts becoming dry. Minimum temperature 7 deg C (45 deg F).

Thursday:
Thursday remaining windy, cloud will increase again quickly during the morning. Further spells of rain, especially over the hills which will be quite foggy. Feeling cooler than of late. Maximum temperature 16 deg C (61 deg F).

Outlook for Friday to Sunday:
Friday windy, cloudy with rain over the hills, some brightness further east. Lighter winds on Saturday, cloudy with showers. Sunday mainly dry, breezy with sunny spells. Near average temperatures throughout.
